Certified

DAC™

Designing Agile Organizations

Certified DAO

To earn the Certified Agile Organization Designer credential, participants must successfully pass the certification assessment.

All participants receive a copy of the seminal book Creating Agile Organizations, and access to workshops and webinars for continued learning.

Great Training!

Last week I spent interesting 2 days in a training on 'Designing agile organizations'.

It turns out there is **no single approach or integrated framework** to address this challenge. We all need to find the answers ourselves. But thanks to the course we have now a **toolbox of proven methods and techniques** to face the challenge!

COURSE AGENDA

Day 1: Design For Strategic Alignment

- Aligning Organization Design with Your Strategic Focus.
- Driving Organization Design with Capabilities
- Systems Thinking for designing an agile organization.
- Designing The Product or Service
- Designing The Product Group (Case study)
- Eliminating Team Dependencies by Design

Day 2: Design For Global Improvement

- Designing The Larger Organization
- Decoupling Groups, Shared Services & Platforms
- Designing The Work of Management
- Processes & integration: how to coordinate and integrate across units.
- Agile HR practice (Case study)
- Working with Large Platform groups

Become a leader for AGILITY

Leverage structure and strategy to **empower people and processes**.
